COUNCIL OF GOVERNORS
PROCESS FOR APPOINTING THE NOMINATED LEAD GOVERNOR

1. Context

The Monitor* NHS Foundation Trust Code of Governance (July 2014) sets out the requirement for Trusts to appoint a Lead Governor. A description of the role as adopted by Sheffield Teaching Hospitals is attached and can be found as appendix 1 of the Terms of Reference of the Council of Governors.

An outline of the process for the appointment of the Lead Governor was as originally approved by the Council of Governors at meeting on 20 November 2012.

2. Appointment Process

When a vacancy occurs the Chair will inform all governors of the vacancy and invite expressions of interest in the role. Governors interested in taking up the role should, in the first instance, discuss their intentions with the Chair. In the event that a number of governors express an interest, a ballot amongst governors will be held and each candidate will be invited to submit a short statement supporting their application to take up the role.

3. Process following Selection of the Lead Governor

The Chair will

- Report the outcome of the ballot to the Council of Governors
- Write to the governor confirming their appointment as Lead Governor

The Assistant Chief Executive will:

- Notify NHS Improvement of the appointment

The Role of the Nominated Lead Governor

The lead governor has a role to play in facilitating direct communication between NHS Improvement (NHSI) and the Trust's Council of Governors. This contact is likely to be infrequent and will occur in a limited number of circumstances but particularly where it may not be appropriate for NHSI to communicate through the normal channels, which in most cases would be via the Trust Chair or the Trust Secretary.

It is not anticipated that there will be regular direct contact between NHSI and the Council of Governors in the ordinary course of businesses. Where contact is necessary it is important that it happens quickly and effectively. To this end a lead governor should be nominated and contact details provided to NHSI. The lead governor may be nominated from any of the governors.

The main circumstances where NHSI will contact the lead governor are where NHSI has concerns as to Board leadership provided to a Foundation Trust and those concerns may in time lead to the use by NHSI of its formal power to remove the Chair or Non-Executive Directors and it will usually be the case that NHSI will wish to understand the views of the governors as to the capacity and capability of these individuals to lead the Trust and to rectify successfully any issues and also for the governors to understand NHSI's concerns.

NHSI does not envisage direct communication with the governors until such time as there is a real risk that the Trust may be in significant breach of its licence. Once there is a risk that this may be the case, and the likely issue is one of Board leadership, NHSI will often wish to have direct contact with the Trust governors but at speed and through one established point of contact, the Trust's nominated lead governor. The Trust should support the lead governor in understanding of NHSI's role, particularly the basis on which NHSI may take regulatory action, to ensure the lead governor is able to correctly communicate more widely with other governors.

Similarly, where individual governors may wish to contact NHSI, this would be expected to be through the lead governor.

The other circumstance where NHSI may wish to contact the lead governor is where, as the regulator, NHSI has been made aware that the process for the appointment of the Chair or other members of the Board, or elections for governors, or other material decisions, may not have complied with the Trust's Constitution, or alternatively, whilst complying with the Trust's Constitution, may be inappropriate. In such circumstances, where the Chair, other member of the Board of Directors or the Trust Secretary may have been involved in the process by which these appointments or other decisions were made, the lead governor may provide the point of contact for NHSI.

At Sheffield Teaching Hospitals the role of lead governor has developed since the role's inception in 2008 and in addition to the duties set out above now also includes the following:

- With the Convenor of the Governors' Forum meets informally with the Chair and Assistant Chief Executive between four and six times per year.
- Where appropriate, supports the Chair in ensuring that governors act within the STH Governors' Code of Conduct. This is an infrequent duty but one which may arise should individual cases of misconduct occur.
