

# Sheffield Accountable Care Partnership

## ACP Board

### Terms of Reference (April 2018)

#### 1. Context

The six main health and care organisations in Sheffield have commenced a programme of work to develop an Accountable Care Partnership (ACP) in Sheffield, in line with the ambitions outlined in the place-based plan 'Shaping Sheffield'. The six organisations are:

- Primary Care Sheffield
- Sheffield Children's NHS Foundation Trust
- Sheffield City Council
- Sheffield Clinical Commissioning Group
- Sheffield Health and Social Care NHS Foundation Trust
- Sheffield Teaching Hospitals NHS Foundation Trust

Each of these organisations brings a different perspective, opportunities and constraints derived from, for example, their form, regulation and membership. However, all six organisations have committed to the development of the ACP.

The parties have agreed to work together in:

*"Improving the health and wellbeing of Sheffield's residents through the promotion of a health and wellbeing culture in all we do and the development and delivery of a world class health and care system"*

This will be achieved through the following aims:

1. Delivering tangible improvements in local health and wellbeing
2. Tackling persistent inequalities in health and wellbeing
3. Improving public engagement and empowerment
4. Ensuring the sustainability of the Sheffield health and care economy
5. Supporting a motivated and high-performing workforce

Key to delivering this will be the overarching governance framework and the roles and responsibilities across its various tiers. These Terms of Reference (ToR) outline the arrangements for the **ACP Board**, which represents one of three tiers in the overarching governance structure. Separate ToRs exist for the other governance tiers.

Where possible, all parties agree to act in good faith to support the aims, objectives and priorities of this ToR for the benefit of all Sheffield residents, subject to their specific legal/statutory obligations and constraints.

The parties recognise that, in coming together as an ACP, the individual accountabilities and governance constraints of each organisation must be respected and may take precedence. They also recognise that the operational day-to-day delivery of health and care will remain within organisations and that this is not the purpose of the ACP. This does not undermine the determination of the participants to seek to effect the beneficial changes which this Partnership is seeking. This document is, as a consequence, not legally binding on the participants.

## **2. Purpose of the ACP Board**

The purpose of the ACP Board has been clarified in relation to the statutory Health and Wellbeing Board, which falls within the Council's jurisdiction. It is set out in this context:

### **a. Role of the Health and Wellbeing Board**

A discussion in November 2017 at the Health and Wellbeing Board (HWB) broadly focused on the role of the HWB to:

- Set the mission and overall scope of the approach in Sheffield to improving **health inequality, wellbeing and supporting our population to remain independent.**
- Fulfil the statutory requirement to develop the **joint strategic needs assessment** for the city and to work in partnership to develop a joint strategic approach.

*N.B: The outcomes of the November 2017 discussion at Health and Wellbeing Board have not yet been formalised.*

### **b. Role of the ACP**

The purpose of the ACP Board is two-fold:

- To provide strategic oversight and drive to shape the vision and ambition of the Accountable Care Partnership, paying due regard to the Health and Wellbeing Board mission for Sheffield and the wider regional and national context;
- To hold the ACP Executive Delivery Group to account for delivering the vision of the Accountable Care Partnership.

The ACP Board should pay due regard to the mission of the Health and Wellbeing Board and the Joint Strategic Needs Assessment.

### **c. Role of the ACP Executive Delivery Group**

The role of the ACP Executive Delivery Group is to provide a collaborative forum across partners to:

- Deliver the vision of the Accountable Care Partnership.

## **3. ACP development process**

As noted in the Memorandum of Understanding (MOU), there are three Phases in the development of the ACP:

- The Development Phase
- The Shadow Phase
- The Operational Phase

The work streams are at different levels of development, with a number already working to change operational service delivery on the ground. Others are at an earlier stage of development.

It is apparent that a rolling review of the Terms of Reference will be required, due to the evolving nature of the ACP, the complexity of governance arrangements and the changing national picture. Therefore, the Board has made a commitment to review the terms of this document:

- On a 12 monthly basis or subject to requests from any partners at any time

In line with the **Memorandum of Understanding**, all Board members are expected to shift from an 'organisationally focused mindset' to a 'system-focused mindset', in which they collaborate with partners to address challenges and improve the health of the population of Sheffield. It is acknowledged that the partnership is currently established through a "coalition of the willing" and whilst all partners will strive to achieve the spirit of cross-system working, the individual accountabilities and governance constraints of each organisation must be respected and may take precedence in the current legislative and regulatory framework.

The Board is responsible for the deliverables described in section 4.

#### **4. Key responsibilities**

The main focus of the ACP Board will be to provide strategic system leadership to the delivery of the Accountable Care Partnership arrangements, hold the Executive Delivery Group to account for the successful delivery of the ACP and support new ways of collaborative working and cultural development. Specific responsibilities include:

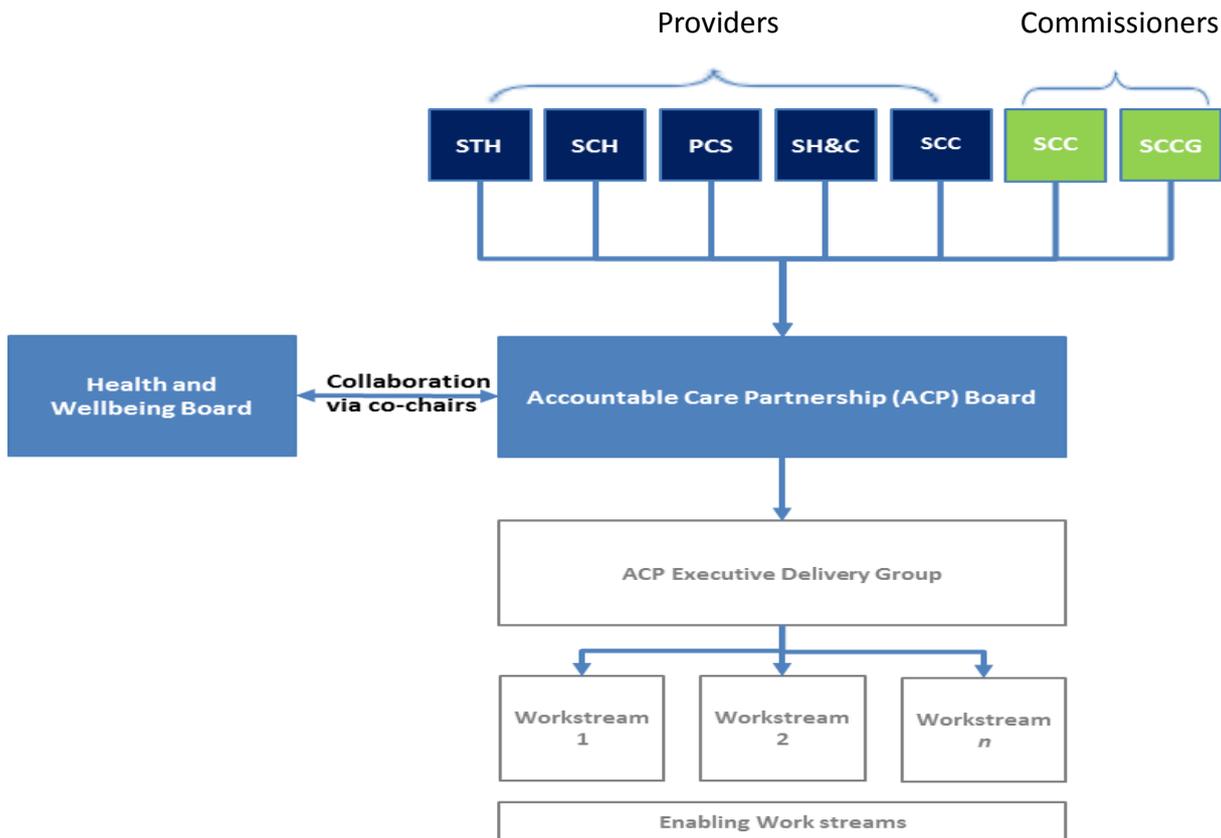

- Setting strategic direction of the ACP
- Ensuring public accountability and transparency of the ACP
- Crystallising and driving forward the ACP vision, strategy and design principles
- Agreeing system level outcomes
- Overseeing the delivery of the Sheffield Place Based Plan
- Supporting, enabling and ensuring effective partnership working across the statutory and third sector
- Ensuring a focus on transformation rather than business as usual
- Removing organisational barriers or other blockages as appropriate
- Providing assurance to constituent organisational Boards
- Obtaining the necessary engagement and support from the wider membership of each organisation
- Providing assurance and a dynamic interface with South Yorkshire and Bassetlaw Integrated Care System

A shared sense of the "how" of the aspirations in this statement of intent will be outlined in the forthcoming vision document for the ACP, which will be set in the context of the Shaping Sheffield Plan and the Health and Wellbeing Board mission.

#### **5. Reporting Arrangements**

The ACP Board will hold authority for the strategic oversight of the vision and ambitions of the Accountable Care Partnership, on behalf of its key stakeholder organisations. It will secondly hold the Executive Delivery Group to account for delivering the vision of the Accountable Care Partnership.

It is fully recognised that decisions requiring individual organisational sign off will be pursued through each work stream group, as determined by the work stream chair. The ACP Board Chairs and Chief Executives will report to organisational Boards for decisions that require this legislatively.

The **ACP Board** will receive a single, overarching highlight report from the **Programme Director** on behalf of the **Executive Delivery Group** on a quarterly basis.

A monthly report will feed the Executive Delivery Group. The report will contain a progress update and will escalate any risks or issues, as required, appropriate to the group.

### Frequency

- The ACP Board will meet quarterly.
- The Executive Delivery Group will continue to meet on a monthly basis.

### 6. Membership

The membership of the ACP Board will consist of representatives from the ACP partner organisations, the voluntary sector, Healthwatch and the LMC. Other attendees may be invited periodically when additional expertise or input is required.

There will be two forms of membership:

- *Core Membership*

This refers to the six statutory bodies in Sheffield.

- *In Attendance*

This refers to members of the Board who represent additional viewpoints or bring other expertise to the ACP Board.

Responsibilities for members of the group are as outlined below.

	<b>Organisation &amp; Membership Type</b>	<b>Title</b>	<b>Function</b>
<b>Councillor Christine Peace</b>  <b>Dr Tim Moorhead</b>	Sheffield City Council  Sheffield CCG  <b>Core Members</b>	<b>Co-chairs</b>	<ul style="list-style-type: none"> <li>To lead the strategic development and delivery of the ACP through effective leadership of the ACP Board.</li> <li>To ensure effective, collaborative partnerships across the ACP.</li> <li>To ensure an effective connection between the Health and Well-Being Board and the ACP Board.</li> <li>To maintain continuity of on-going integrated programmes of work.</li> <li>To ensure that the ACP has proper governance arrangements in place and that the ACP and all Board members operate with the utmost probity at all times.</li> <li>To ensure the voice of the public and service users are heard.</li> <li>To work with the Chief Executives in discharging the delivery of the ACP.</li> </ul>

			<ul style="list-style-type: none"> <li>• To support system working and ACP outcomes.</li> <li>• To coordinate the operation of the Board in conjunction with the Co-Chairs and CEOs.</li> </ul>
--	--	--	---

**7. Membership and Quoracy**

- **Chair:** The Board will be co-chaired by the Council Cabinet Member for Health & Social Care and the Chair of the CCG, with chairing of meetings generally alternating between them.
- **Attendance at meetings and deputies:** Each member will need to nominate an appropriate deputy to attend in their absence and changes to the membership must be agreed by the Co-Chairs. Nominated deputies will need to be authorised to act on behalf of the organisation they represent. No single organisation will be permitted to send more than one deputy to any given meeting.
- **Quorum:** The meeting will be quorate only in the presence of a core member (Chair or Chief Executive or deputy) from each of the core member organisations.
- **Delegated Function:** As agreed in the MoU, the ACP Board will not initially have any delegated functions from the Boards/Governing Bodies of its members, which remain separate organisations. Therefore, there should be no requirement for voting at this time.
- **Authority of representatives:** It is accepted that some decisions will need to be made in accordance with the governance procedures of the organisations represented on the Board and as set out in the Memorandum of Understanding.
- **Accountability and scrutiny:** The Board reports to the individual partner Boards and the Health and Wellbeing Committee. Its work may be subject to scrutiny by any of the Council's relevant scrutiny committees.
- **Relationship to other groups:** The Board has formally agreed a Memorandum of Understanding between all formal partners and is developing relationships with other bodies in the city such as the Council's scrutiny committees, Healthwatch, other partnership and commissioning boards, the voluntary sector etc.
- **Communication through partner organisations:** Members will be responsible for ensuring that appropriate personnel within their own organisation are fully briefed on any group discussions and decisions.
- **Clinical Leadership:** Each work stream will have a designated senior clinical lead which will ensure clinical input in all planning and decision-making processes.

**8. Accountability**

The ACP will demonstrate transparency and accountability to local people, partners and stakeholders in the following ways:

- Publishing these Terms of Reference and the ACP Memorandum of Understanding;
- Holding ACP Board meetings in public (with a private session covering only items which the ACP Board considers would not be in the public interest, according to clear criteria);
- In addition, members of the public are invited to ask questions at the formal public meetings related to the published agenda of the Accountable Care Partnership. An answer may take the form of:
  - An oral answer
  - A written answer to the member of the public, circulated to the Board and placed on the ACP website
  - Where the desired information is contained in a publication, a reference to that publication.

The Board's chairs will restrict the length of time given to answering public questions at any meetings held to 15-30 minutes. Questions should relate to the published agenda of the ACP;

- Publishing each year an annual report sharing the work, achievements, challenges and future focus of the ACP;
- Complying with local authority health and scrutiny requirements.

## **9. Engagement and Co-Design**

A principle of co-design with the public and users underpins the cultural ethos of the ACP and its ambition to embrace a person-centred approach.

The ACP Board is committed to sustained and significant public and service user engagement process at neighbourhood, ACP and where required Integrated Care System level, to support transformation that benefits the population of Sheffield. Building on shared principles, the ACP Board will be responsible for ensuring that all partners are involved in shaping the future of health and care across the City of Sheffield. This will include the public, users of services, carers, health and care commissioners, providers, the Health and Wellbeing Board, Healthwatch and the voluntary sector.

The Board will hold a range of engagement events every year, open to the public and/or providers. These events will be in addition to the formal, public meetings of the Board and events organised for the health and care workforce and will be a means of:

- Providing an avenue for members of the public to impact on the Board's discussions and work;
- Engaging the public and/or providers in the development of the ACP;
- Developing the Board's understanding of local people's and providers' experiences and priorities the development and delivery of the ACP;
- Communicating the work of the Board in developing and delivering the vision of the ACP for Sheffield;
- Developing a shared perspective of the ways in which the public can contribute to the development and delivery of the ACP.

The Board will maintain a website with up-to-date information about the work of the ACP, including information on how the public can get involved.

A full communication, engagement and co-design strategy will be developed in 2018/19.

## **10. Principles of Good Governance**

In accordance with Section 14L (2) (b) of the 2006 Act, the ACP will at all times observe “such generally accepted principles of good governance” in the way it conducts its business. These include:

- a. The Highest Standards of propriety involving impartiality, integrity and objectivity, in relation to the overall stewardship of public funds (recognising the sovereignty of each partner organisation in decision making) and the management and conduct of the ACP;
- b. The Good Governance Standard for Public Services;
- c. The standards of behaviour published by the Committee on Standards in Public Life (1995) known as the Nolan Principles;
- d. The seven key principles of the NHS Constitution;
- e. The Equality Act;
- f. Probity and Governance: it is acknowledged that the ACP Board will need to navigate a challenging governance route in this new landscape of system working, in the absence of statutory responsibilities and with enhanced potential for conflicts of interest. Therefore, there will be a 12 monthly review with an agreed representative of the Audit Committee Chairs from across partner organisations.

## **11. Managing Conflicts of Interest**

It is acknowledged that the governance around managing conflicts of interest is more complex due to the multi-partnership arrangements of the ACP.

- a. Individual members of the ACP Board, Executive Delivery Group or individual work stream board and any individual directly involved with the business or decision making of the ACP will comply with the arrangements determined by the CCG for managing conflicts of interest.
- b. The process for managing conflicts of interest will be:
  - Conflicts of interest should be declared in advance of the meeting to the Programme Director once agenda is published;
  - The Programme Director will seek advice from the Chair of the meeting and/or the Lead Director at the CCG regarding appropriate management of this in relation to the meeting;
  - Where required, advice from the Chair of the CCG Audit Committee will be sought.
- c. For every interest declared, it will be the responsibility of the Programme Director, working with a nominated representative for corporate governance from across partner organisations to manage the conflict of interest or potential conflict of interests, to ensure the integrity of the ACP’s decision making processes.
- d. In the immediate term, the ACP will follow the policy of SCCG for managing conflicts of interest of all Board members which is in line with statutory guidance, as outlined in Standards of Business Conduct and Conflicts of Interest Policy and Procedure, available on its website: [http: www.sheffieldccg.nhs.uk/our-information/documents\\_and\\_policies.htm](http://www.sheffieldccg.nhs.uk/our-information/documents_and_policies.htm). As a next step, local government and NHS corporate leads will work

together to review local government and the NHS policies and ensure the ACP is appropriately informed by both policies.

## **12. Meetings, agendas and papers**

- a. The Board will normally meet **every quarter** with a public and private session, interspersed with engagement events and private strategy development meetings if required. There will be no fewer than 4 meetings per financial year.
- b. Dates, venues, agendas and papers for public meetings will be published in advance on the planned ACP's website (to be launched during 18/19). In advance of website launch, dates will be published primarily through the CCG website with a link provided on each partner websites.
- c. The co-Chairs will agree the agenda for each meeting, supported by the Programme Director.
- d. A formal record of the meeting will be documented and an action log will be maintained to record actions and outcomes from the meeting and identify action owners.
- e. Agendas and papers will be circulated to all members and be available on the CCG's website, 7 days in advance of the meeting. A link will be provided on each partner's website.
- f. Minutes will be circulated to all members, and published on the CCG's website when they have been signed off at the subsequent ACP Board. A link will be provided on all partner organisations' websites to the ACP papers.
- g. It is expected that those who write papers will work collaboratively with others to provide a city-wide perspective on any given issue.

## **13. Review**

These Terms of Reference will be reviewed every 12 months. The Terms of Reference are informed by:

- The CCG Constitution
- The SCCG Health and Wellbeing Board
- Partner Board Terms of Reference and Conflict of Interest Policies

## Appendix 1

### NOLAN PRINCIPLES

The 'Nolan Principles' set out the ways in which holders of public office should behave in discharging their duties. The seven principles are:

- a) **Selflessness** – Holders of public office should act solely in terms of the public interest. They should not do so in order to gain financial or other benefits for themselves, their family or their friends.
- b) **Integrity** – Holders of public office should not place themselves under any financial or other obligation to outside individuals or organisations that might seek to influence them in the performance of their official duties.
- c) **Objectivity** – In carrying out public business, including making public appointments, awarding contracts, or recommending individuals for rewards and benefits, holders of public office should make choices on merit.
- d) **Accountability** – Holders of public office are accountable for their decisions and actions to the public and must submit themselves to whatever scrutiny is appropriate to their office.
- e) **Openness** – Holders of public office should be as open as possible about all the decisions and actions they take. They should give reasons for their decisions and restrict information only when the wider public interest clearly demands.
- f) **Honesty** – Holders of public office have a duty to declare any private interests relating to their public duties and to take steps to resolve any conflicts arising in a way that protects the public interest.
- g) **Leadership** – Holders of public office should promote and support these principles by leadership and example.

## Appendix 2

### NHS CONSTITUTION

The NHS Constitution sets out seven key principles that guide the NHS in all it does:

1. **The NHS provides a comprehensive service, available to all** - irrespective of gender, race, disability, age, sexual orientation, religion or belief. It has a duty to each and every individual that it serves and must respect their human rights. At the same time, it has a wider social duty to promote equality through the services it provides and to pay particular attention to groups or sections of society where improvements in health and life expectancy are not keeping pace with the rest of the population

2. **Access to NHS services is based on clinical need, not an individual's ability to pay** - NHS services are free of charge, except in limited circumstances sanctioned by Parliament.

3. **The NHS aspires to the highest standards of excellence and professionalism** - in the provision of high-quality care that is safe, effective and focused on patient experience; in the planning and delivery of the clinical and other services it provides; in the people it employs and the education, training and development they receive; in the leadership and management of its organisations; and through its commitment to innovation and to the promotion and conduct of research to improve the current and future health and care of the population.

4. **NHS services must reflect the needs and preferences of patients, their families and their carers** - patients, with their families and carers, where appropriate, will be involved in and consulted on all decisions about their care and treatment.

5. **The NHS works across organisational boundaries and in partnership with other organisations in the interest of patients, local communities and the wider population** - the NHS is an integrated system of organisations and services bound together by the principles and values now reflected in the Constitution. The NHS is committed to working jointly with local authorities and a wide range of other private, public and third sector organisations at national and local level to provide and deliver improvements in health and well-being

6. **The NHS is committed to providing best value for taxpayers' money and the most cost-effective, fair and sustainable use of finite resources** - public funds for healthcare will be devoted solely to the benefit of the people that the NHS serves

7. **The NHS is accountable to the public, communities and patients that it serves** - the NHS is a national service funded through national taxation, and it is the Government which sets the framework for the NHS and which is accountable to Parliament for its operation. However, most decisions in the NHS, especially those about the treatment of individuals and the detailed organisation of services, are rightly taken by the local NHS and by patients with their clinicians. The system of responsibility and accountability for taking decisions in the NHS should be transparent and clear to the public, patients and staff. The Government will ensure that there is always a clear and up-to-date statement of NHS accountability for this purpose
